

Cable Oil Test Termination - 50 kV

Technical Data :

Rated voltage at 50/60 Hz (kV) - 50

Possibility of testing at a frequency of 500 Hz

PD level at rated voltage (pC) - ≤ 1

Test voltage, 50 Hz, 1 min (kV) - 60

Weight (2 units less oil) (kg) – 8

Max. cable diameter over outer semiconducting layer (mm) - 35

Max. conductor diameter (mm) - 30

With the possibility of mounting directly to the cable drum

Applications covered include testing according to IEC, ANSI / IEEE & other national standards for cable Routine Test.
